

## **Campbell Collins Ltd Signs UK Distribution Agreement with Arch Electronics**

*Deal Enables Campbell Collins to offer Arch's Complete line up of AC/DC and DC/DC Products to the UK Market*

Stevenage, UK – 7<sup>th</sup> January 2010 – Campbell Collins Ltd, a specialist supplier of power supply products and capacitors, is excited to announce that it has entered into a Distribution Agreement with Arch Electronics Corporation of Taiwan. The deal enables Campbell Collins to extend its range of AC/DC and DC/DC products still further, making it one of the leading UK distributors of Power Source Products.

Arch Electronics, an ISO9001 and ISO14001 registered company, offers an extensive product range encompassing DC/DC Power Modules from 1.5W to 50W, AC/DC Power Modules from 4W to 60W, AC/DC Switching Power Supplies from 60W to 360W and Medical Grade AC/DC Power Modules up to 40W. Devices are available with Single, Dual and Triple outputs, and can be offered in a variety of mechanical configurations including DIN Rail and U-Channel, as well as modules pre-mounted to PCB's with Screw Connectors for ease of installation. Targeting the Telecom/Datacom, Industrial and Medical markets, the product portfolio is an ideal addition to Campbell Collins' already extensive range of Power Supplies and Capacitors.

"Campbell Collins is well respected in the UK Marketplace as a leading supplier of Power Products, and this agreement cements that position with the addition of a wide range of AC/DC products for Telecom, Industrial and Medical applications" said Phil Goff, Sales & Marketing Manager at Campbell Collins. "We are committed to being the preferred source of Power related devices to UK Design Engineers, and we are thrilled to be able to offer this new range of products to our customers." he added.
